

Florida Dental Association
Dentists Day on the Hill
April 1-2, 2008
Tallahassee, FL

FAPD is active politically, as well as professionally, realizing that government can be both our partner and our obstacle. We therefore maintain an active presence in Tallahassee letting our voice be heard both through our dentists who frequently give of their time to participate in the process, as well as through the assistance of former Senator John Grant, who is our legislative advocate in the capitol.

We ask that any of our members who feel inclined to be involved in the public process volunteer by contacting us and we will find opportunities for service. We also encourage all of our members to participate in Dentists Day on the Hill, where we will have special events for pediatric dentists.

Our advocate, John Grant, is the founder of The Florida Capitol Advocate Group and for those who want links to both state and federal government, they may use the web links found at www.FloridaCapitolAdvocate.com.

During the legislative session, our advocate sends our officers and directors by e-mail, various updates on legislative issues and events of interest to our members. Any FAPD member in good standing may also receive those updates by e-mailing our advocate and asking to be added to the circulation list. The e-mail address is jgrant@floridacapitoladvocate.com.
